OBJECTIVE

Aspiring Full Stack Developer skilled in React, Flask, Python, MySQL, Redis and Docker. Experienced in building secure web applications, REST APIs and full stack projects with a strong focus on problem-solving and software development. Seeking an opportunity to contribute technical expertise while growing as a software engineer

EDUCATIONAL INFORMATION

- **B.Tech in Artificial Intelligence & Data Science** (2023 - Present)
V.S.B College of Engineering Technical campus, Coimbatore
CGPA: 7.97 (till 5th semester)
- **Higher Secondary Certificate (HSC)** (2022-2023)
Sri Vagiswari Vidhya Mandir Matric Hr Secondary School, Coimbatore

PROJECTS

1. SecureAuth Authentication & Security Dashboard System

- Built a **Dockerized** full-stack authentication system featuring **JWT authentication**, **OTP recovery**, Webcam-based intrusion detection, **rate limiting** and **role-based access control**.
- Engineered advanced security features including OTP verification, **replay-attack protection**, rate limiting login activity monitoring and secure password reset workflows
- Implemented intruder detection with email alerts and snapshot capture using **Flask**, **MySQL** and **React**.

2. SecureScan AI - Intelligent Website Security Assessment Platform

- Developed a full-stack cybersecurity platform that performs **SSL/TLS certificate analysis**, **security header auditing**, **certificate chain validation** and automated **website risk assessment**.
- Built **JWT-based authentication**, **Role-Based Access Control (RBAC)**, domain monitoring, notification and an admin analytics dashboard using React, Flask and MySQL.
- Designed RESTful APIs and a security scoring engine with AI-powered recommendations and professional PDF report generation for website security assessment

KEY SKILLS

Programming Language: Python, Java

Frontend Technologies: React.js

Backend: Flask

Databases: MySQL, Redis

Tools & Version control: Git, GitHub, Docker

Soft Skills: Communication Skills, Teamwork, Curiosity & Continuous Learning

EXPERIENCE

Project Intern at Emglitz Technologies

June 2025 - August 2025

- Developed and improved responsive web pages using HTML, and CSS.
- Integrated REST APIs to show dynamic content across components.
- Worked with senior developers to apply modern UI/UX design practices.
- Enhanced website load speed and user experience with clean, reusable code.

Python Full Stack Intern - VEI Technologies Pvt. Ltd. (Onsite)

Dec 2025 - Jan 2026

- Trained in Python Full Stack Development using Flask, MySQL, HTML, CSS and JavaScript.
- Learned REST APIs, database integration, and Full-stack web application workflows.
- Applied concepts through hands-on assignments and guided projects.

CERTIFICATION

- Cloud Computing - NPTEL
- Version Control - Meta
- Python programming - Meta
- Introduction to Front-End Development - Meta

EXTRACURRICULAR & ACHIEVEMENT

LeetCode Problem Solving Excellence Award

- Awarded as the Top Performer in the Department for outstanding problem-solving skills and consistent Performance on LeetCode
- Demonstrated excellence in Data Structures, Algorithms and competitive programming through consistent coding practice and problem-solving achievements.

Hackathon 360 3.0 - International Level Hackathon

- Participated in Round I of an international-level hackathon, showcasing problem-solving and innovation skills.

Talkathon Participant

- Selected among the Top 15 participants in a departmental Talkathon competition.
